Campus Supports & Incentives
for 21st Century Scholars**

2015-2016

Revised March, 2016

Using Your 21st Century Scholarship

How the 21st Century Scholarship works:

- Does not pay *full* tuition at an eligible Indiana Private college, but can be applied toward a portion of regularly assessed **tuition and fees**. Many private colleges offer additional institutional aid to support Scholars.
- Does not cover room, board, books, or other expenses associated with college enrollment;
- Valid for **8 semesters** (four years) of full-time enrollment;
- Students must enroll in an eligible Indiana college or university within one year of graduating high school;
- Students must enroll as full-time students to receive the Scholarship;
- Funds are disbursed directly to the institution on behalf of the student, **NOT paid directly to the student**; the 21st Century Scholarship should be listed on students' award notification letter and **applied directly to students' bursar accounts**.

In order to receive the full 21st Century Scholarship Award each year, students **MUST**:

1

File a FAFSA by Indiana's March 10th priority deadline and make all corrections by May 15th.

Complete at least 30 credit hours by the end of the first year; 60 credit hours by the end of the second year; and 90 credit hours by the end of the third year.

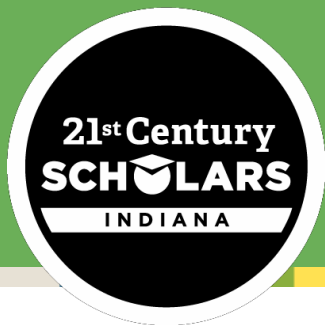

Credit hour requirements can include college credit earned in high school and in summer college courses. The 21st Century Scholarship can be applied toward summer tuition if student has unused funds (check with home institution's financial aid office.).

21st Century Scholars who complete fewer credits may be eligible for Frank O'Bannon Grant (FOB) if they meet the following completion criteria:

- 24-29 credits by the end of the first year;
- 48-59 credits by the end of the second year;
- 72-89 credits by the end of the third year.

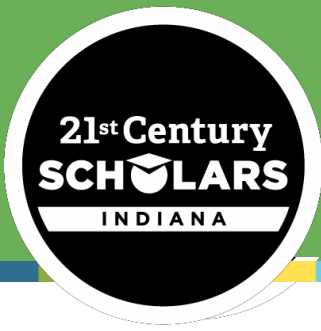

Students will not be eligible to receive either the 21st Century Scholarship or the FOB award if they complete *fewer than*:

- 24 credits by the end of the first year;
- 48 credits by the end of the second year;
- 72 credits by the end of the third year.

Using Your 21st Century Scholarship

Students who do not complete at least 30 credits each academic year for the first three years of college can earn their way back into the program by taking summer courses or additional credits during the academic year to catch up to required levels.

Make Satisfactory Academic Progress (SAP) as determined by their institution.

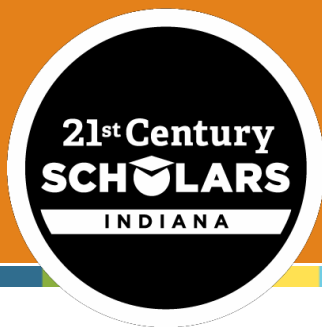

At Indiana's colleges and universities, making SAP includes staying on pace to graduate and completing a degree within a maximum time frame. SAP also includes maintaining a minimum cumulative grade point average (GPA) and successfully completing a percentage of cumulative attempted coursework. Institutions typically set a limit on incomplete grades and withdrawals from courses.

Each institution determines its own SAP guidelines. The table that follows includes cumulative GPA requirements, as well as the percentage of cumulative attempted coursework that students must successfully complete, for each private institution in Indiana. This table does NOT include individual institution requirements for staying on pace to graduation and maximum time frames for earning a degree—since per program requirements—all 21st Century Scholars must complete 30 credit hours per academic year (see "2" above) and to earn a degree within four years to continue earning their 21st Century Scholarship.

Butler University

[Butler University](#) is a private University located in Indianapolis, Indiana with an enrollment of approximately 4,500 students.

Programs, Support Services, and Other Resources for 21st Century Scholars

- **Academic Success Coaching** – Academic Success Coaching sessions are available to any Butler student interested in enhancing academic skills. Coaching is an individualized process that includes the completion of a learning strategy self-assessment. Students will gain insight into areas of academic strength and will identify strategies to address academic concerns. Students will work collaboratively with their Academic Success Coach to develop a plan of action specific to their identified needs/strengths.
- **Academic Success Workshops** – Workshops are offered on a weekly basis to Butler students, and topic areas include study habits, goal setting, time management, test anxiety, reading and note-taking skills, etc. Students have the option of choosing one or several specific areas to target or choosing to attend each topic to develop a comprehensive set of learning strategies. The workshop schedule for the current semester can be found at the following link: www.butler.edu/learning.
- **LC 100 (Strategies for Success)** – LC 100 is a one-credit hour course that is offered to Butler students during both the fall and spring semesters. In this class, students learn a variety of learning/cognitive strategies in the context of principles, such as personal responsibility, self-motivation, self-management, interdependence, self-awareness, and lifelong learning.
- **Tutoring Resources** – Butler students have access to multiple resources that can assist with coursework. Through departmental study tables and individualized peer tutoring, students have the opportunity to interact with peers who have previously mastered the material and understand the difficulties that each subject presents.

Programs, Support Services, and Other Resources for 21st Century Scholars

- **ZERO EFC Grant.** This is CCSJ institutional aid available to traditional, 0 EFC students who qualify for full Pell and State of Indiana aid including **21st Century Scholars**. The award amount varies and assists in covering the remaining tuition costs after all other forms of financial aid are applied.
- **Tuition Freeze Incentive.** The tuition freeze program is for first-time, full-time degree-seeking students (not transfer students) who start in any fall term. Students who qualify are charged the same flat tuition rate for 4 consecutive years by completing at least 30 credit hours per year. That's 30 credit hours after year 1, 60 after year 2, 90 after year 3, and 120 at the end of year 4, which is the number of credits required to graduate with a bachelor's degree. These are the same requirements to retain the 21st Century Scholarship from the State of Indiana.
- **Summer Bridge Program.** This program helps underprepared high school graduates during the summer prior to their freshman year of college. Those students who do not test into college level Math or English courses are invited to participate in a three week Summer Bridge Program in an effort to provide practical academic skills in the culture of a college classroom with support services for group and individual instruction. Students are retested at the end of the three-week program, and if their scores are improved, students may be able to go into college level courses.
- **Learning Communities. (LC)** Learning Communities are linked courses to reinforce learning, to share meaningful assignments, to embed student support services by using shared class time to provide workshops on college skills that new college students need, including reading textbooks, taking class notes and studying for tests. LCs also offer social experiences that bring together large groups of freshmen to build a sense of community.
- **Free Tutoring Services.** The Student Success Center for free tutoring services is located in our Specker Memorial Library. In 2014, peer tutors were replaced with faculty tutors

Programs, Support Services, and Other Resources for 21st Century Scholars

First-Year Seminars are small, discussion-based class that ensures that the students and faculty instructor get to know one another well. The small class size also fosters good academic discussions in which all students feel welcome to participate in the exploration of ideas, careful reading of texts, and critical thinking. In most cases, the instructor for the course is also the students' academic advisor until they declare a major.

First-Year Mentors are upperclass student leaders who work with first-year students outside of the classroom. Mentors promote intellectual, social and personal development of first-year students during their entire first year at DePauw. Mentors serve as excellent resources for first-year students as they begin navigating their way through the University. These student leaders engage their Mentor Groups in team building activities that allow for the group to become close and serve as a source of support for one another.

21st Century Scholar Advisor. Additionally, 21st Century Scholars have a dedicated academic advising administrator to provide specific support and counseling for maintaining academic eligibility for the 21st Century Scholars program.

DePauw University

Programs, Support Services, and Other Resources for 21st Century Scholars

- The Huntington University Enterprise Resource Center (ERC) helps students find those real-world experiences by matching them with businesses both locally and across state lines. The ERC can even help you find an internship in your hometown, or an opportunity to learn overseas, allowing you to build your résumé with experience.
- The Career Services Office assists students and alumni with career decisions, goals, and directions by providing opportunities for self-assessment and learning decision-making skills.
- The Academic Center for Excellence (ACE) provides support to students in individual or small group settings. ACE staff coordinate peer tutoring, by appointment, with trained peer tutors in a wide variety of courses. In addition, the ACE director provides individualized assistance to students in evaluating and improving study habits and skills such as time management and test taking. The ACE director is also the advocate and coordinator of services for students with disabilities at the University. Any student who has a learning, orthopedic, sensory, psychiatric or other condition that substantially limits one or more major life activities and who would benefit from accommodations may be eligible for assistance.
- The Writing Center is open to students who wish to improve their writing skills. English tutors provide personal assistance so students may learn to express ideas more effectively. This support ranges from brainstorming and organizing a project to editing compositions and improving grammar, punctuation and spelling. Drop-in hours for the Writing Center are posted for each semester.

Further requirements and information can be found online at www.marian.edu/21stcentury.

Programs, Support Services, and Other Resources for 21st Century Scholars

Pre-Orientation Week: At the beginning of the academic year, mentors and first-year scholars move-in early to participate in a pre-orientation program. During this time, scholars learn about campus resources, attend workshops (financial literacy, preparing a resume for work study, credit completion, time management, making healthy choices in college, etc.) engage in teambuilding, participate in service projects, and spend time to develop a relationship with their mentors.

Mentor to Success: This peer-to-peer mentoring program allows scholars to find a community of support as they arrive on campus and gain direct access and knowledge to campus resources. Upperclassmen mentors help scholars locate their classes, share advice about college life, and introduce them to on-campus opportunities.

Student Success Seminars: Presented by the Director of Academic Engagement, Student Success Seminars are an extensive series of workshops and are designed to help scholars navigate through their academic careers, while offering guidance and recommendations for student success. Some of the topics covered include, study skills, test taking strategies, GRE preparation, and many more.

Social Events: The Office of 21st Century Scholars plan events both on-campus and off-campus to help enrich the scholars' college experience. Most importantly the office offers these events free of charge or for a reduced cost. Past activities include attending an Indiana Pacers game, a Broadway musical, movies, ice skating, bowling, and an Indianapolis, Indians baseball game.

Marian University

Community Mentoring Program: The Community Mentoring Program pairs upperclassmen scholars with professionals in the Indianapolis area. Scholars can expect to learn and understand career options within their field, determine networking opportunities, and connect knowledge and ideas learned in class with real world experiences, while receiving guidance and support from an experienced professional. Mentors and scholars are required to meet to discuss career goals, academic coursework, development of professional skills, and other topics as deemed fit.

Academic Success Coaching: Students are paired with professional staff members who meet with students one-on-one. Coaches help students develop action plans and identify necessary steps to facilitate academic success. Based on a student's needs coaches will explore topics such as study strategies, learning preferences, time management, goal setting, academic/student support resources, and campus engagement.

Peer Tutoring: Marian University's peer tutoring program is a free resource and service offered through the Office of Academic Engagement. Tutors help develop confidence and the skills necessary to be successful at the university level. Tutoring is provided on a one-to-one bases or in small groups. Individual tutoring sessions can take place in study lounges, the library, residence hall lounges, Alumni Hall, or the Evans Center. Open tutoring times are also available and take place in the Peer Tutor Center.

Services are offered for most entry-level courses and some upper-level courses

Additional Incentives and Supplemental Scholarships

Students enrolled in the 21st Century Scholars Program will receive priority registration for UE's Freshman Student Success Course. Course text book is free.

Programs, Support Services, and Other Resources for 21st Century Scholars

All 21st Century Scholars are followed by a member of the University of Evansville Student Success Team to ensure that they are meeting their credit completion requirements.

- Students are blocked from dropping a course with a "W" until they have seen a counselor to explain the implications for completion. A credit completion plan is put into place at that time if the student still wants to withdraw.
- Students may add a "late start" course on top of existing load if advisable, or do a drop/add if they are becoming unsuccessful in a course and need to withdraw from a course.
- The University of Evansville has Winter Session Courses that students can take online over the Christmas break.

The University of Evansville reviews and approves all courses taken away from UE in the summer so that the student is ensured that he is taking a course that will successfully transfer back to UE.

Student Support Services

At the University of Evansville, all Academic Support Services are free:

- Tutoring
- Supplemental Instruction
- Writing Center
- Study Skills and Time Management Coaching
